INCOMPLETE SEARCH
SHEET C

Application Number
EP 04 00 7560

Claim(s) searched incompletely:
20,21

Claim(s) not searched:
12,13,19

Reason for the limitation of the search:

Present claims 12, 13, 19, 20, 21 relate to products defined by a parameter or property, namely the ability to bind to the claimed molecules, to yield a biological activity or to act either agonistically or antagonistically. The use of these parameters in the present context is considered to lead to a lack of clarity within the meaning of Article 84 EPC. It is impossible to compare the parameters the applicant has chosen to employ with what is set out in the prior art. The lack of clarity is such as to render a meaningful complete search impossible. Consequently, no search has been carried out for claims 12, 13, 19 and for those parts of claims 20 and 21, that relate to the above mentioned products. Moreover, the claims cover all products having this characteristic or property, whereas the application provides no support within the meaning of Article 84 EPC and/or disclosure within the meaning of Article 83 EPC. In the present case, the claims so lack support, and the application so lacks disclosure, that a meaningful search is impossible.

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 04 00 7560

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on. The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
